Course Description

This course will offer an introduction to gender and sexuality in a variety of historical and cultural contexts. We will look at gender within different social institutions (e.g. the family, the workplace, education, etc.) and look at ways in which gender roles are maintained by these institutions. Students will be exposed to a wide array of views, which will include both contemporary and historical perspectives. By studying gender theory, the course will introduce students to the argument that gender is a social construct, meaning that gender roles have varied considerably in various times and places.

Academic Integrity

As members of the Jinan University academic community, students are expected to be honest in all of their academic coursework and activities. Academic dishonesty includes (but is not limited to) cheating on assignments; plagiarizing, i.e., misrepresenting as one's own work any work done by another; submitting the same paper, or a substantially similar paper, to meet the requirements of more than one course without the approval and consent of the instructors concerned; or sabotaging other students' work within these general definitions. Instructors, however, determine what constitutes academic misconduct in the courses they teach. Students found guilty of academic misconduct in any portion of the academic work face penalties that range from the lowering of their course grade to awarding a grade of E for the entire course.

Generative AI Policy

Generative AI (e.g., ChatGPT, Claude) should be used as a supplement, not a substitute for critical engagement.

- **Acceptable Uses:** Brainstorming, refining research questions, drafting outlines, and checking grammar/style.

- **Unacceptable Uses:** Substituting AI for reading assigned texts, having AI compose journals or discussion posts, or using AI to complete any graded assessments.
- **Required Documentation:** If AI tools are used in any capacity, a disclosure statement must be included in your submission detailing how the tool was used.
