

0201E322

Environmental Economics

Instructor: TBA

Time: October 20, 2025 - November 21, 2025

Office Hours: 2 hours (according to the teaching schedule)

Contact Hours: 60 (50 minutes each)

Credits: 4

E-mail: TBA

Course Description

This course examines the economic principles underlying environmental regulation and explores the effectiveness of different policy approaches to pollution control, resource management, and sustainability. We will analyze the political economy of environmental regulation, compare command-and-control versus incentive-based policies, and evaluate real-world applications of environmental laws and market-based mechanisms.

Prerequisites

0201E317 Mathematics for Economics I, 0701M110 Calculus I, and 0201E350 Intermediate Microeconomics

Course Schedule

Please note that the schedule is meant to give an overview of the major concepts of this course. Changes may occur in this calendar as needed to aid in the student's development.

Week 1

Course Introduction

Ethics and Economics

Pollution and Resource Degradation as Externalities

Quiz #1

Week 2

The Efficiency Standard

Measuring the Benefits of Environmental Protection

Measuring the Costs of Environmental Protection

Quiz #2

Week 3

The Safety Standard

The Sustainability Standard

Measuring Sustainability

Exam #1

Week 4

The Political Economy of Environmental Regulation

An Overview of Environmental Legislation

The Regulatory Record: Achievements and Obstacles

Quiz #3

Week 5

Incentive-Based Regulation: Theory

Incentive-Based Regulation: Practice

Energy Policy and the Future

Exam #2

Grading Policy

Quizzes (*3)	30%
Exam #1	30%
Exam #2	30%
<u>Participation</u>	<u>10%</u>
Total	100%

Grading Scale

The instructor will use the grading system as applied by JNU:

Definition	Letter Grade	Score
Excellent	A	90~100
Good	B	80~89
Satisfactory	C	70~79
Poor	D	60~69
Failed	E	Below 60

Academic Integrity

As members of the Jinan University academic community, students are expected to be honest in all of their academic coursework and activities. Academic dishonesty, includes (but is not limited to) cheating on assignments or examinations; plagiarizing, i.e., misrepresenting as one's own work any work done by another; submitting the same paper, or a substantially similar paper, to meet the requirements of more than one course without the approval and consent of the instructors concerned; or sabotaging other students' work within these general definitions. Instructors, however, determine what constitutes academic misconduct in the courses they teach. Students found guilty of academic misconduct in any portion of the academic work face penalties that range from the lowering of their course grade to awarding a grade of E.
