Course Description

This course builds on the fundamentals learned in Introduction to Macroeconomics. We will study the determinants of long-term economic growth, consumption, savings, investment, short-term economic fluctuations, unemployment, money and business cycles etc.

Course Goals

During this course, students will focus on learning how to:

- Find and use appropriate sources of data for analysis and decisions in macroeconomics;
- Learn quantitative modelling techniques in macroeconomic analysis
- Analyze long run growth models and supply side development economics
- Analyze open economy macro models with systems of equations
- Use models to analyze effects of fiscal, monetary, and trade policies
- Discuss advanced models for consumption, investment, and international trade flows
- Discuss connections between the US economy and the international economy;
- Critically analyze the current debates in public policy regarding macroeconomics;

- Identify and discuss ethical dilemmas in macroeconomics.

Satisfactory	C	70~79
Poor	D	60~69
Failed	E	Below 60

Attendance

Attendance is mandatory in the class. It would be recorded each class and forms part of students' participation record. Students should inform the instructor at the earliest opportunity if they need to ask for a leave. All absences may have negative effect on students' final grades. Any students with more than three unexcused absences will automatically fail the course.

Academic Integrity

As members of the Jinan University academic community, students are expected to be honest in all of their academic coursework and activities. Academic dishonesty, includes (but is not limited to) cheating on assignments or examinations; plagiarizing, i.e., misrepresenting as one's own work any work done by another; submitting the same paper, or a substantially similar paper, to meet the requirements of more than one course without the approval and consent of the instructors concerned; or sabotaging other students' work within these general definitions. Instructors, however, determine what constitutes academic misconduct in the courses they teach. Students found guilty of academic misconduct in any portion of the academic work face penalties that range from the lowering of their course grade to awarding a grade of E.
